

## GRAMMAR DRILL (REPRODUCIBLE)

The best way to learn Latin grammar forms is to *hear*, *see*, *say*, and *write* them. Looking at your grammar forms listen to your teacher (or CD) pronounce each conjugation or declension. Repeat afterwards and then write each conjugation or declension neatly and accurately in one of the three sections below. Record the day. It is best to study your grammar forms on three separate days. Use five rows for declensions and three rows for conjugations.
